Import av GPX-filer (2)

Import av GPX-filer (3)

The screenshot shows a GIS application interface. On the left, there is a sidebar with a search and attribute panel. The main area displays a map of Sweden with city names like Luleå, Umeå, Gävle, Örebro, Stockholm, and Linköping. A dialog box titled "Import från fil" is open in the center, containing the following text:

Import från fil

Giltiga filer att ladda upp:
GPX (WGS84) eller zippad shapefil (i SWEREF99 TM)

C:\Metria\Geodata\GPX-filer\import-fran-GPX\GPX-track\No [Välj fil]

[Ladda upp] [Avbryt]

A red arrow points from the text "Peka ut fil" to the "Välj fil" button in the dialog box. The application title bar shows "Metria DEMO: Lars Dahlén" and "Metria Slickness". The bottom status bar shows a scale of 1:8 000 000 and the coordinate system "Sweref 99 TM: 7316959, 1014242 (N, E)".

Import av GPX-filer (4)

The screenshot shows a GIS application window with a top menu bar containing 'Arkiv' and user information 'Metria DEMO: Lars Dahlén' and 'Metria Sickness'. Below the menu is a toolbar with various icons for navigation and editing. On the left, there is a 'Sökning & Attribut' panel with tabs for 'Sökning', 'Åtgärdsobjekt', and 'Dokume'. The 'Sökning' tab is active, showing a search area with fields for 'Namn:', 'Beskrivning:', 'Anmärkning:', 'Åtgärd:', and 'Status:'. Below these are search options: 'Sök fastighet', 'Sök ortnamn', and 'Gå till koordinat'. The main map area displays a topographic map with a blue line representing a stream and a red dashed line representing a path. A red arrow points from the search panel towards the map. A red arrow also points from the map towards a notification box in the bottom right corner. The notification box contains the text: 'Uppladdning ok' and 'GPX-fil C:\Metria\Geodata\GPX-filer\import-fran-GPX\GPX-waypoint\Norrskog-insektsskada-1.gpx laddades upp ok'. At the bottom of the map, there is a scale bar for 100m and a zoom level indicator showing '1: 5 353'.

Kartan zoomas till GPX-filens utbredning

Uppladdning ok
GPX-fil C:\Metria\Geodata\GPX-filer\import-fran-GPX\GPX-waypoint\Norrskog-insektsskada-1.gpx laddades upp ok

Import av GPX-filer (5)

The screenshot displays the Metria software interface. The main window is titled "Metria DEMO: Lars Dahlén" and "Metria Slickness". The interface is divided into several panels:

- Arkiv**: A dropdown menu at the top left.
- Sökning & Attribut**: A search and attribute panel on the left. It includes a search bar, tabs for "Sökning", "Åtgärdsobjekt", and "Dokument* (2)", and search criteria for "Sök Åtgärdsobjekt", "Sök fastighet", "Sök ortnamn", and "Gå till koordinat".
- Map**: The central map area showing a topographic map with a track labeled "Spår" highlighted in pink. A scale bar indicates 100 m. The map coordinates are "Sweref 99 TM: 7096399, 564319 (N, E)".
- Lager och Teckenförklaring**: A layer and legend panel on the right. It has tabs for "Lager" and "Teckenförklaring". Under "Lager", the following layers are listed:
 - Importer
 - Shapeimport
 - GPX-import
 - Åtgärdsobjekt
 - Särskilt värdefulla vatten
 - Natur och Kultur
 - Fastigheter
 - Skoglig information
 - Vägar (NVDB)
 - Övrigt, Metria Maps
 - Flygfoto
 - Metainfo för Ortofoton
 - Skogliga grunddata
 - Laserdata
 - Baslager
 - Ortofoton färg 0,5m
 - Ortofoton s/v 1m
 - Satellitbilder 2015
 - Satellitbilder 2014
- Opacitet**: An opacity slider at the bottom right.

Two red arrows are overlaid on the image: one points to the "GPX-import" layer in the "Lager och Teckenförklaring" panel, and the other points to the "Spår" track on the map.
