

Ny åtgärdstyp; Dikning (och Vägbyggnad)

The screenshot displays a GIS application interface with the following components:

- Sökning & Attribut (Search & Attributes):** A sidebar on the left containing search filters. The 'Åtgärd' (Action) dropdown is set to 'Dikning'. Other fields include 'Namn', 'Beskrivning', 'Anmärkning', and 'Status'. There are buttons for 'Rensa' (Clear) and 'Sök' (Search).
- Map:** A central map view showing a satellite-style terrain. A blue dashed line highlights a specific area labeled 'Rävelslyet'. A red arrow points to this highlighted area.
- Lager och Teckenförklaring (Layers and Legend):** A sidebar on the right with a legend. Under the 'Åtgärdsområden' (Action Areas) section, 'Dikning' is listed with a blue dashed line symbol. A red arrow points to this entry. Other listed actions include 'Föryngringsawerkning', 'Gallring', 'Markberedning', 'Plantering', 'Röjning', and 'Övrigt'. Below this, 'Hänsynsområden' (Sensitive Areas) includes 'Hänsynsområde'. 'Avvikande åtgärdsytor' (Deviant Action Areas) includes 'Avvikande åtgärdsyta'. The 'Vägar' (Roads) section lists 'Bilväg', 'Skotväg', 'Dikesrensning', 'Skyddsdikey', 'Uttransport', 'Bäck', 'Dike', and 'Stig'.
- Map Controls:** A toolbar at the top with navigation icons (pan, zoom, home, info, etc.). A scale bar at the bottom left shows 100 meters. The bottom center displays the map projection: 'Sweref 99 TM: 7215043, 788015 (N, E)'. The bottom right shows a zoom level of 100%.
