

Byt kartlager för skuggad markmodell, ...mer kontrast

The screenshot displays a web-based GIS application interface. On the left, there is a search panel with the following elements:

- Buttons for "Arkiv" and "Sökning".
- Search filters: "Åtgärdsobjekt" and "Dokument (4)".
- Search input field: "Sök åtgärdsobjekt".
- Form fields for "Namn:", "Beskrivning:", "Anmärkning:", "Åtgärd:", and "Status:".
- Checkbox: "Aktivera geometrisk sökning".
- Buttons: "Rensa" (with a red X) and "Sök" (with a magnifying glass).
- Additional search options: "Sök fastighet", "Sök ortnamn", and "Gå till koordinat".

The main map area shows a 3D shaded terrain model with a green line overlay. The map includes labels for various locations: "Långmyran", "Svartmyran", "Lappålet", "Snabbsmyran", "Svartålet", "Längmyran", "Ålgmyran", and "Snåshålet". A scale bar indicates 100 meters. The map control panel on the right includes a "Lager och Teckenförklaring" button. At the bottom, the scale is set to 1:10 000 and the coordinate system is Sweref 99 TM: 7153666, 733563 (N, E). The zoom level is set to 100%.
